

POSITION ANNOUNCEMENT RESEARCH ASSOCIATE - Madison, WI

Inviragen, Inc. is a biotechnology company that has laboratories in Madison, Wisconsin and Fort Collins, Colorado and develops vaccines for emerging infectious diseases, worldwide. Over 15 million people worldwide die each year of infectious diseases; vaccines to prevent these diseases are one of the most cost effective means of improving global health. Inviragen's vaccines will take advantage of new trends in the global vaccine marketplace including the growing economies of developing countries, new global vaccine initiatives, increasing public and government awareness of the value of vaccines, and the need for vaccines against potential bioweapon threats. Inviragen is bridging the gap between vaccine research and product development by creating a team of dedicated vaccine development specialists that will utilize global resources and capabilities to bring vaccine concepts to reality.

The company is currently recruiting for a full-time Research Associate to work on Inviragen's plague vaccine project in the Madison, Wisconsin facility.

Duties include:

- Conducting animal experiments for safety and efficacy of vaccine candidate
- Optimizing and executing immunological and microbiological tests
- Developing novel immunological tests for vaccine response
- Tabulating, recording, analyzing and graphing data for meetings, presentations and manuscripts
- Interacting with vaccine development teams and coordinating activities with other team members

The ideal candidate will meet the following requirements:

- BA, BS, or MS in molecular biology, virology, immunology or a related field
- Experience in basic bacteriology and immunology techniques
- Experience in small animal experimentation preferred
- Excellent oral and written communication skills
- Ability to work productively in a team environment

In addition, the position will require work with Biosafety Level 3 organisms and Select Agents. FBI clearance will be required. Previous Select Agent experience highly desirable.

Inviragen offers a competitive salary and an excellent benefits package. Please apply by August 15, 2010; position to start as soon as September 1.
